Art. 24. To see if the town will instruct the Sewer Commissioners to extend the service on Irving street opposite the Wade property and appropriate money for the same.

Voted to instruct the Sewer Commissioners to extend the sewer service on Irving Street to opposite the Wade property at an expense not to exceed \$500.00, to be taken from money in their hands.

Art. 25. To see if the town will appropriate a sum of money for a new jail, or act in any manner relating thereto.

Voted to dismiss the article.

Art. 26. To hear and act on report of Special Committee in regard to motor fire equipment for the town of Millis, and appropriate money for same, or act in any manner relating thereto.

The condition of our Fire Equipment, I will briefly outline.

The Forest Fire Wagon is up-to-date and in good condition.

Hook & Ladder in good condition but too heavy and awkward for our town.

Hose Wagon is in good condition, but a horse drawn hose wagon without a power pump and chemical attachment is out of date for a town of our size.

Some years ago we fought our forest fires with brooms, rakes and shovels, and naturally the fires took longer to get under control, which necessarily meant a large fire loss to wood owners and greater expense to the town. To overcome the problem the town purchased the Forest Fire Wagon,

mentioned above, and today forest fires are quickly and easily handled with its chemical equipment.

We stand today up-to-date in Forest Fire fighting equipment. Our town is growing, large and beautiful homes have been built in our out-lying districts, new factory buildings, and additions are being erected, also public buildings have increased, and last but not least, a great number of our citizens have built for themselves homes needing the protection of an up-to-date equipment. Our town in the last ten years has grown rapidly but our equipment for fighting building fires stands the same.

WATER PRESSURE.

This town is very well covered by our water system, covering many outlying districts giving hydrant service. The pressure, however, is very low, from 45 to 30 lbs, which is an exceptional low pressure. At Clicquot an average of 40 lbs. is kept during the day, and at early morning the pressure is down to perhaps 30 lbs., which will give us only one working line of hose, until the engineer gets the pump in operation again. When engineer is pumping we can get three short lines on a fire, but the nozzle pressure is very low at the best.

OUR BUILDINGS.

This town has many large wood light construction buildings that in case of fire would quickly burn. The contents and internal construction of which would make some of them particularly hard to check.

The J. M. Herman Shoe factory, a four story of light mill construction, with the old part of factory with monitor roof adjoining, is probably the largest and hardest to handle in case a serious fire should break out.

These buildings are entirely covered by automatic sprinklers, which are good to check a small fire.

It can be plainly seen from the large fires in various places lately that a fire can get away from a sprinkler system.

We have a large three-story wood hotel, the Herman House, that would require hard work on our department in event of fire.

The Clicquot Club Co. have many hundred thousand dollars invested in brick buildings and contents amply protected by sprinklers, yard hydrants, etc., but it is possible to have a serious fire even in this class building, in event that a fire near by or, inside of their own buildings should get a big start, which happens in a great many cases.

The Safepack Co., makers of paper roofing, shingles and other coated paper products, from the very contents and processes employed make a very difficult risk to handle.

Their buildings are stone and wood construction, and amply protected by the sprindlers, yard hydrants, etc., but we have already experienced a very difficult fire at one of these buildings at the time of the Crown fire.

In Millis depot section we have close together number of wood houses, perhaps the biggest chance for a bad fire in town.

Thorne's block, Snow's hall, Burt Store block next to our fire station. The above mentioned buildings present to us a very serious fire hazard, as there is no individual or private protection inside of any of these buildings.

The space between any of these is but a few feet, and if one got a fire it would be difficult to hold it to the building in which it started.

There are numerous other large buildings about town such as Christ Church, Grange Hall, Holbrook's store, etc., that would tax our department beyond the limit as it is.

In the northern part of the town we will mention several fine residences that have absolutely no protection of any kind at present F. O. Houghton, H. L. Movius and Lemuel Clark farms.

The other properties such as Mrs. Blake, Dr. Thorndike, Eliot Hubbard, H. Rotman and Oak Grove farm, and all others have hydrant service although very poor.

At Eliot Hubbard's water will not run in faucets unless tank is full, when tank is low as it is every morning there is really no faucet pressure.

You can readily see what could be done with a line of hose, without any pump to pull from hydrant.

The entire North End is without proper protection at present.

We have other very valuable property in other parts of the town where conditions are the same as North, namely R. K. Thorndike, Moses C. Adams and others.

Rockville territory is now without practically any equipment to handle any fire, and the man power is away daytimes so that it falls on the part of Hose 1, Millis to help cover that part of town.

Your Fire Department next to the Schools the most important have asked for the least money each year, and show the smallest per cent of increase in appropriations and expense of any department from 1885 to date.

I ask you citizens where is there a town, having volunteer firemen like Millis, receiving practically nothing for their service, who respond as quickly and give of the best that is in them. When a fire is raging threatening to destroy yours or your neighbors property, this spirit has been handed down through the years, and today we stand before you asking that you give the firemen who gladly accept the risk of injury, loss of time and money, your support.

Your Committee recommends the purchase of a Triple Comb. Auto Car with 500 gallon pump and 40 gallon Chemical Tank.

This car will cut down the time required to respond to a fire, will take care of small fires with chemical attachment, or if the fire is large give four lines of hose with 80 to 90 lbs. pressure each.

The Firemen have voted to give the money due them for this year, to changing over the fire house, which we believe can be done within the volunteered amount, giving us a fire house large enough for a number of years to come.

D. C. ADAMS,

M. B. LACROIX,

R. F. KING.

Voted the report be accepted.

Voted the article be laid on the table until the next town meeting, the same committee to continue until that time.

Art. 27. To see if the town will appropriate a sum of money for repairs on park at Rockville.

Voted to dismiss.

Art. 28. To see if the town will appropriate a sum of money to purchase a loading machine, or act in any manner relating thereto.

No action.

Art. 29. That the town treasurer with approval of the selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the municipal year beginning Jan. 1, 1921, to an amount not to exceed \$40,000, and to issue a note or notes therefore, payable within one year, any debts incurred under this vote to be paid from revenue of said municipal year.

Vote unanimous. That the town treasurer with the approval of the selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the municipal year beginning Jan. 1, 1921, to an amount not to exceed \$40,000, and to issue a note or notes therefore, payable within one year, any debts incurred under this vote to be paid from revenue of said municipal year.

Art. 30. To grant money appropriated in the foregoing articles.

Voted to grant \$68293.45 appropriated under the foregoing articles.

Adjourned.

LOUIS LACROIX,
Town Clerk.

Art. 4. To see if the town will hear and act on report of Park Committee, or act in any manner relating thereto.

Millis, July 29, 1921

REPORT OF PARK COMMITTEE.

Your Park Committee is of the unanimous opinion that proper precautions should be taken in the very near future to preserve to present and future generations such present available sites as are desirable for parks, play grounds and athletic fields. With so many open places around us this idea may not mean very much to us at this time; but, if our town continues to grow as it has for several years past, many of these open places will be lost to us in the not distant future. Should we not preserve some of the most desirable sites against such a time?

Your committee has performed its work with this fundamental idea in mind. We are indebted to Mr. H. L. Movius for assistance and advice in arriving at our conclusions.

It is the opinion of the committee that the town should take immediate steps to secure possession of the following tracts of land—

1. The triangle at the corner of Union and Main Streets consisting of about 1-2 acre.
2. The triangle at Rockville Corner consisting of about three acres.
3. The open field on Main Street opposite Exchange Street, consisting of about 5 acres.
4. A section of land directly in the rear of the High School lot, extending back to the Ingraham property and adjoining the open field just mentioned, consisting of approximately 10 acres.
5. Rights of way from this property to Plain and Spring Streets.

The Union and Main Street and Rockville Corner tracts are prominent and marked locations in the town, and town ownership will preserve them as sightly breathing spaces and prevent their being made unsightly by erection of buildings or otherwise.

Recommendations Nos. 3, 4 and 5 would provide a combined area of about 15 acres with approaches from Main, Spring and Plain Streets. In this tract is included a fine grove of pine, oak, etc., a 5 acre field suitable for athletic purposes, and opportunity to extend the High School playgrounds.

The committee recommends that these items be taken up separately, discussed and voted upon for the purpose of determining the sentiment of voters of the town.

If this sentiment is favorable we recommend an appropriation of \$200.00 to be expended in making a survey to determine boundaries and area, including a topographical survey if the appropriation is sufficient, to be made under the direction of the Park Commissioners, with the Park Committee continued as an advisory committee to assist the Park Commissioners.

Respectfully submitted,

FRANK P. CONGDON,

D. J. MURPHY,

E. F. RICHARDSON,

MRS. POLESKI,

MRS. R. K. THORNDIKE,

Park Committee.

Voted to accept the report of the Committee.

Voted that the present Park Committee continue as an advisory committee to the Park Commissioners.

Art. 5. To see if the town will appropriate money and authorize the Park Commissioners to present plans and layout to be recorded with the Town Clerk for land suitable for park purposes, and act on any matter relating thereto.

Voted, unanimously. To appropriate \$195.00 to be used by the Park Commissioners in preparing plans and layout of lands suitable for park purposes.

Voted that the Park Commissioners report at the next annual meeting.

Art. 6. To see if the town will appropriate an additional sum of money for toilet system for Adams school house, or act in any manner relating thereto.

Voted unanimously to appropriate \$179.50 to complete the toilet system at the Adams school house.

Art. 7. To grant money appropriated in the foregoing articles:

Voted to grant \$374.50 appropriated in the foregoing articles.

LOUIS LACROIX,

Town Clerk.

FOURTH MEETING, DEC. 31, 1921

Article 1. To see if the town will appropriate money to pay bills due in the School, Poor, and Incidental Departments in excess of the appropriations, and to grant the same from the balance in the treasury.

Meeting called to order at 7.40 P. M. by G. P. Holbrook, Moderator.

No report from Warrant Committee.

Reports of School, Poor and Incidental Departments as to conditions of their finances.

Voted unanimous. That the Treasurer be authorized and instructed to pay the sum of \$2000 to the School Department, \$850 to the Incidental Department and \$473.78 to the Poor Department from the unexpended balance in the treasury.

In my report of expenses for this year I have not separated the expenses of the ice storm, but have carried it in the account as Gypsy Moth work, as we were authorized and advised to use all the available funds that we could spare for tree work after the storm. This word was received from the State Forester backed by the Selectmen, and as we spent something over eight hundred dollars (\$800.00) in this work from the Gypsy Moth fund, you will see why your property receipts are not larger, and I recommend the appropriation this year of four thousand dollars (\$4000.00) for Moth work and Elm Leaf Beetle Spraying.

EVERETT L. COLDWELL,

Superintendent.

This report covers both Tree Warden and Elm Leaf Beetle appropriation. As the appropriation was made in that way the accounts could not be separated.

I wish also to call the property owners attention to the road side shade tree situation, and unless there is this year a substantial appropriation placed for the use of the Tree Warden's department for pruning and repair work, the trees will suffer and the town possibly loose a large number of trees. These trees can practically all be saved if the town's people will give us the money to work with, and I recommend the appropriation of two thousand five hundred dollars (\$2500.00) to cover repair work and road side brush removal.

EVERETT L. COLDWELL,
Tree Warden.

1-2 note of \$3000 paid Oct. 1, 1921	1500 00	3075 00

\$13714 06

The assessments received from the property owners is used as a fund, from which one-half the interest and one-half of the principal is to be paid on the town of Millis Sewer loan of \$60,000.

For that reason, this fund will be kept invested where it can be drawn as needed and earn interest at the same time.

The Treasurer by advice of the Sewer Commissioners has invested as follows:

Deposited in Medway Savings bank	11714 06
Paid-up certificates Medfield Co-operative bank	2000 00

\$13714 06

The appeals to the Court, made by the J. M. Herman Shoe Company, the Safe Pack Mills Company, and the Clicquot Club Company, from the special assessments made by the Sewer Commissioners and accepted by the town, are still pending. The Clicquot Club Company has recently paid the full amount of its special assessment. This has been properly invested by the Sewer Commissioners in the local banks.

The Engineers recommend the sum of fourteen hundred dollars for the ensuing year.

Mr. Scannell, owner of the Engine House at Rockville has raised the rent to \$7.00 per month. We recommend that an engine house be built on the Town Park, a one story building 30 ft. x 30 ft. not to cost over \$2000.00.

SUPERINTENDENT'S REPORT.

To the School Committee of Millis:

School Conditions.

School conditions indicate community conditions. Well kept buildings, efficient teachers, properly trained pupils are evidence of what the people really desire—and are determined to have. All service, public or private, helps to shape the growth of the state, but that of the public schools is of supreme importance since it trains those to whom is entrusted the future welfare of the nation.

Money spent for the betterment of the public schools is money spent for the betterment of each individual citizen. The results in the last analysis are what the people actually wish. School authorities may recommend appropriations, but the people vote the money. The responsibility, however, is two-fold. School officials must use their wisest judgment in recommending what money shall be spent; citizens must be ready and willing to properly support their own public institutions.

System.

A good system or regulated ways of doing things is necessary for the proper conduct of any business. Too much system, however, defeats its own end by hindering instead of helping progress. Schools are graded to meet the needs of pupils of different ages and degrees of advancement. Discernment and good judgment are necessary, however, in dealing with individual boys and girls.*

If certain pupils are really fitted for advancement, it is an injustice to hold them back simply to mark time with a

special grade; if others are incapable of keeping up with regular class work, they should be placed in the grade where they belong. In many cases the formation of special classes is the only true solution of such problems. Pupils should not be praised for possessing superior native abilities, nor be blamed for corresponding deficiencies. Effort and growth on the part of each individual form the true basis of estimating success.

Publicity

Publicity or advertising is usually associated with the commercial world. Every business and profession, however, has its own way of advertising and the public schools are not exempt. The strongest advertisement for the schools is the character and ability of the pupils. The quality of the graduates measures the standard of the institution. Teachers may reach the public in various ways. Report cards, exhibits, work sent home and talks with parents are all ways of influence for good. The responsibility, however, is not on the teachers alone. Parents can greatly help to improve the entire spirit of school work by their sympathy, appreciation and support.

PRINCIPAL'S REPORT.

Millis, Mass., Jan. 23, 1922.

Mr. A. S. Ames, Supt. of Schools.

I beg leave to present for your consideration the following report of the Principal of the High School. In submitting this I wish first to thank you for your support during the past year.

The High School, which may admit students to the colleges on the New England College Entrance Certificate list has just been given the certificate privilege by Cornell University. I consider this a privilege which few High Schools of this size possess.

We now have what I believe to be the largest enrollment that this school has ever had. However, the work has gone on smoothly.

Material progress has been made in the development of a health program in the High School. Hygiene is offered in the sophomore year. Each pupil in school is expected to devote one period a week to physical training, but because we have no gymnasium that is omitted during the winter months and basket ball for both boys and girls has been substituted.

In closing I wish to thank the teachers for their steadfast efforts and parents and citizens for their support and co-operation. I would also express my deep appreciation of the harmonious relations that have characterized the work of the School Committee. In these times it is rare to find such uniform consideration and courtesy and such cordial co-operation and harmonizing of differences in view points.

Respectfully submitted,

WINTHROP M. JOHNSON.

REPORT OF TEACHER OF MUSIC AND DRAWING.

Millis, Mass., Jan. 6, 1922.

Mr. Albert S. Ames, Superintendent,
Millis, Mass.

Dear Mr. Ames:

I herewith submit my third annual report. The courses in drawing and music are been continued according to the plans which has been followed during the past two years.

This year, for the first time, graduation credit is offered to those students who successfully complete the High School music course. The High School music periods are used for assembly singing and in preparing a June graduation program. In addition to the regular work, a concert was given in Grange Hall, April 7, 1921.

The drawing periods in the primary and intermediate grades are used for construction work, simple drawings and projects. In advanced grades the problems becomes more difficult. Various types of work are done with crayon, brush, pen or pencil. The ultimate goal sought is the attainment of and appreciation of that which is practical and beautiful.

For the continued co-operation of the school executives, teachers and pupils I am grateful.

Respectfully yours,

ELIZABETH GRIFFIN.

Millis High School Song

Gray is the peaceful night,
 Day's closing brings it nigh,
 Crimson which streaks the sky
 In radiant light;—
 Those are our colors dear,
 Though we in number few,
 To then we will be true,
 When far or near.

Each year we work and strive,
 To keep our ideals high,
 High as the distant sky
 Each one alive:—
 Memories of happy hours,
 Millis—thou school of ours
 Hear this our welcome lay—
 Crimson and Gray.

—Words by Ruth Richardson, 1920.
